

## NEW AKVIS Inspire AI 1.0 Software – Artistic Stylization of Images

*May 31, 2023 – AKVIS unveils a brand-new software – AKVIS Inspire AI 1.0. The new program based on neural networks allows users to imitate the style of painters and transform photos into artworks using samples of art.*

AKVIS expands its product portfolio with the release of a new software! The company that already owns dozens of unique developments in the field of image and video editing, has just released a new program, based on artificial intelligence (AI) technologies.

**AKVIS Inspire AI 1.0** performs image stylization using various samples of painting, drawing, or illustration. The program applies the color scheme and style of a selected artwork to a photo creating a new masterpiece. The software includes a gallery of art styles and allows users to load a custom image.

With the new program, it's effortless to transform a photo into a painting using any piece of art as a model for imitation. Just choose a sample - and its style will be applied to the image.

Download AKVIS Inspire AI from [akvis.com](https://akvis.com). The 10-day trial period is fully functional and has no restrictions. It's possible to create a lot of artworks within the free evaluation.

The new software is multi-platform and runs on 64-bit OS: Windows 7-11, macOS 10.12-13.0, and Linux.

AKVIS Inspire AI is available as a standalone application and (on Windows and Mac) it can also be used as a plugin with graphics editors: [AliveColors](#) by AKVIS, Adobe Photoshop, Corel PaintShop Pro, and other compatible programs.

The program supports a multi-language interface and allows users to change the language in the preferences on the fly.

The product comes in Home (either Plugin or Standalone, \$ 49), Home Deluxe (Plugin & Standalone, \$ 69), and Business (Plugin & Standalone for commercial use, \$ 99) versions (lifetime licenses). Consult the official website [akvis.com](https://akvis.com) for more details about the new software.

**AKVIS** ([akvis.com](https://akvis.com)) specializes in the development of photo & video processing software. Since the company's launch in 2004, it has released a wide selection of successful multi-platform products. The company always keeps up with the times, updates its products with cutting-edge technologies, and launches innovative, inspiring products.
