AKVIS LightShop

Type of Program: Graphics Plugin
Supported Platforms: Windows 2Kx/XP/NT/Vista/Mac OS X 10X
Company Name: Akvis LLC
Version: 1.2
Price: $117.00

Akvis Lightshop is a brilliant plugin (Plugin for Adobe Photoshop, Photoshop Elements, Corel (Jasc) Paint Shop Pro, Ulead Photo Impact, etc.) that enables you to enhance photos with amazing high quality lighting effects. You can create lightning in a stormy sky, a colorful rainbow over a city, a reflection on a raindrop, the glow on smoldering wood in a fire-place, alien signs blazing in the night sky, flares on the sun, the lights of distant planets, fireworks or whatever the limit of your imagination is.

The program comes with 64 premade light effects all of which are customisable and the facility to create your own effects is also included. As with all Akvis products ease of use is the watchword and will suit professionals and amateurs equally. Supported languages are English, Russian and Japanese.

Do take a look and try it, you will find it hard not to buy it.
